What is the Maplewood Master Plan?

A Master Plan is a “blueprint” for a municipality, that outlines a vision for the future. It includes community-established principles to balance economic, social, physical, environmental, and fiscal planning.

The document is not a law or regulations, but provides guidance to elected officials and stakeholders when they make land use, zoning, and capital investment decisions.

For more information on the Master Plan and the Planning Process, visit the Township of Maplewood website.

Participate in the Master Plan Virtual Workshop

Help us learn what is important to the community in Maplewood and how you would like to see the Township change in the future.

Use your mobile device to scan the QR code to the right and access the workshop or visit the website url below.

www.MaplewoodMasterPlanWorkshop.com

This online engagement opportunity is the first of many ways that you can influence the plan. It will be open from the beginning of July through mid September, 2022.

Help us make sure the Maplewood community is represented. Share this with your friends and neighbors!
